ACTIVITIES AND PERFORMANCES

A. CHILD EDUCATION & DEVELOPMENT PROGRAM

A quality education system supports a child's developing social, emotional, cognitive and communication skills. Education programs also support the development of knowledge and abilities (i.e., human assets). Children who receive quality primary education are more likely to develop these assets at a higher level. We provide free education to every needy child so that they can develop themselves and also uplift their living standard. Our team of volunteers do survey in all rural and slum areas and make list of those children who need education but due to financial problems they can't continue their study.

Every year we educate large numbers of children and also do other help like provide study material, clothes and food, so that they can be attract towards education and will be a part of this developed society. Children are the future of upcoming time so they are the base of development and education is most important thing if we want to change the world.

They need more attention and help because child labor is also a big issue which stops them being educate, and we have to finish it on grass route level, we are working on it as possible as we can and in future we will increase our work and spread it on huge level, so that every person can see the situation of hidden serious problems of our society, we have a good team to execute this plan.

B. FREE MEDICAL CHECK UP CAMP

“ The greatest wealth is Health.”

Living a healthy lifestyle can help prevent chronic diseases and long-term illnesses. Feeling good about yourself and taking care of your health are important for your self-esteem and self-image. Maintain a healthy lifestyle by doing what is right for your body. Your health is at the center of your life. Every part of your life relies on you having good health. You cannot climb higher in all the other seven areas of your life if you do not have enough physical energy to devote to each of them. There are many people in our society ignore small health problems some due to lack of money and some due to careless nature, but with the time that will become a big and serious health problem after that they have to face many problems. So we organize health camps for needy people, who are unable to visit expensive clinics for small health issues or any regular checkups, we provide checkup and treatment facility as possible as there can, and distribute basic medicines for them time to time.

This was a pre- and post-intervention study conducted in Balasore, Odisha. It was a door-to-door campaign and people who are from rural areas were targeted to be aware about the health awareness. Rural area people are not aware about the health diseases that takes.

C. COVID -19 PRECAUTION AWARENESS

As we all know that Coronavirus disease(COVID - 19) is an infectious disease caused by a newly discovered coronavirus. Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover with out requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

The best way to prevent and slowdown transmission is to be well informed about the COVID-19 virus, the disease it causes and how it spreads. Protect yourself and others from infection by washing your hands or using an alcohol based rub frequently and not touching your face. The COVID-19 virus spreads primarily through droplet so salivary discharge from the nose when an infected person coughs or sneezes, suit's important that you also practice respiratory etiquette(for example, by coughing into a flexed elbow).

D. GIRL'S & WOMEN'S EDUCATION DEVELOPMENT PROGRAM

Girls have the right same right to education as boys. Educated girls can make informed choices - and from a far better range of options. Educating girls saves lives and builds stronger families, communities and economies. An educated female population increases a country's productivity and fuels economic growth. One of the most important benefits of girl education is that the country's future will be brighter and better. Similarly, our economy can grow faster if more and more women become financially strong thereby reducing poverty. Furthermore, women who are educated can take proper care of their children.

E. SWACHH BHARAT ABHIYAN

We organized awareness program for spread awareness about clean India, and also did it ourselves. Cleanliness helps us stay refreshed and hygienic on a personal level. Further, it lessens the chances of any viruses or bacteria to harm us. When you stay clean and keep the environment clean, you are less likely to fall ill. You can enjoy good health and lead an active lifestyle.

F. MASK & SANITIZER DISTRIBUTION

G. CLOTHES & FOOD DISTRIBUTION TO NEEDY PEOPLE

H. WOMEN EMPOWERMENT PROGRAM

Gender inequality is not only a pressing moral and social issue but also a critical economic challenge. Enriched program supports women's aspiration to transform themselves and their communities. It provides them with the opportunity to embark on an empowerment journey; a journey to gain the confidence, skills and knowledge they need to reach their full potential as agents of sustainable change and to support their entrepreneurial aspirations.

Participatory Workshops Tailored to Women Needs - An awareness, confidence and skills building journey offering participants an opportunity to (un)learn, reflect and envision their empowerment journey across 7 key areas of knowledge, in a group setting.

Livelihood Skills, Assets & Handholding - Livelihood skills training relevant to local resources and market opportunities. Transfer of assets as "in kind" seed capital. Social Enterprises providing support throughout the entire Value Chain.

From organization's inception we are continuously working for empowering women through provide them stitching and embroidery training every year who are in need and interested in to make them self dependent. We try to do every possible help to empower women specially in rural areas.

Our Special Initiative - BLANKETS AND WINTER JACKETS DONATION CAMPAIGN.

Actually, Winter season creates a huge problem for the poor and homeless people in the society. They suffer a lot for the want of warm clothes. The members of our organization organized a Blankets and winter jackets donation campaign for the S.C & S.T people on 1st January, 2021 at Nilda, West Bengal. We donated 174 pieces of Blankets and 97 pieces of winter jackets to the S.C and S.T people of that area. They were very happy having got the blankets and jackets.
